

## **JARED GROSS**

Cybersecurity Program & Governance Leader

Salem, OR • jared@frontieritsec.com • 5038096113

• <https://www.linkedin.com/in/jared-g-20368910a> •

Cybersecurity and technology program leader with experience delivering enterprise cloud security, infrastructure modernization, AI governance, and operational resilience initiatives across Fortune 100, healthcare, and public sector environments.

Known for stabilizing high-visibility programs under audit, compliance, operational, and delivery pressure while aligning executives, engineering teams, vendors, and stakeholders around measurable outcomes tied to enterprise cybersecurity governance, operational resilience, cloud modernization, AI oversight, and risk reduction.

---

### **SELECTED ACHIEVEMENTS:**

- Led enterprise cyber resiliency and recovery modernization initiatives focused on ransomware recovery readiness, isolated recovery environments, operational resilience governance, and executive tabletop exercises.
- Built and led multimillion dollar enterprise cloud security and AI governance programs aligned to NIST CSF, CMMC, and SOC 2 requirements, enabling enterprise adoption of generative AI within governed security and compliance boundaries.
- Built and operationalized a PMO governance framework for Nike's global cloud/security portfolio, standardizing cadence, reporting, and delivery across multi-cloud initiatives.
- Directed Nike's global WAF migration to Akamai across 200+ domains, reducing critical vulnerabilities by 40%.

### **TECHNICAL & OPERATIONAL ENVIRONMENT:**

AWS • Azure • GCP • Alibaba Cloud • IAM/PAM • Zero Trust • Operational Resilience • Python • PowerShell • Terraform • Splunk • Datadog • Jira • ServiceNow • GitHub • Jenkins • MS Project • Smartsheet

### **PROFESSIONAL EXPERIENCE:**

#### **Rockwell Automation - Remote**

Senior Technical PM - Cybersecurity | Aug 2025 – Present

- Serve as senior technical PM leading high-visibility cybersecurity and infrastructure modernization initiatives supporting enterprise resiliency and operational risk reduction.

- Oversaw enterprise cyber resiliency and recovery initiatives focused on ransomware recovery readiness, operational resilience, isolated recovery environments, executive tabletop exercises, and enterprise recovery governance.
- Supported enterprise operational resilience planning through cyber tabletop exercises, disaster recovery validation efforts, and continuity governance initiatives aligned to enterprise risk priorities.
- Oversaw privileged access modernization initiatives focused on endpoint privilege management, least-privilege enforcement, service account governance, and secure application delivery aligned to Zero Trust principles.
- Coordinated cross-functional delivery across security, infrastructure, engineering, vendors, and executive stakeholders to maintain alignment on enterprise cybersecurity priorities and operational milestones.
- Coordinated enterprise data protection initiatives including DLP governance, sensitive data classification, insider-risk controls, encryption strategy, and M365 information protection capabilities.

### **Resource Data - Portland, OR**

Senior Technical Program Manager & Cloud/AI Security Lead | Aug 2023 – August 2025

- Directed a \$3M+ cloud security, AI governance, and infrastructure modernization portfolio across enterprise and regulated environments.
- Led enterprise cloud security, AI governance, and compliance programs as part of broader digital transformation efforts.
- Streamlined workflows, reducing timelines and overhead while improving KPI, risk, and roadmap visibility for the C-suite.

### **Bungie - Bellevue, WA**

Automation Engineer/ Technical PM | Mar 2022 – Jun 2023

- Led security automation and infrastructure modernization initiatives supporting global threat detection and operational scalability.
- Delivered briefings to stakeholders on automation and AI initiatives, informing security and infrastructure decisions.
- Built and maintained global automation in Python, Perl, and PowerShell, saving 500+ engineering hours annually.

### **Nike - Beaverton, OR**

PM / Senior Automation Engineer - Cloud & Infrastructure Automation | Jun 2019 - Sep 2021

- Led global automation and security programs impacting \$1M+ in operations.
- Drove enterprise WAF migration to Akamai across 200+ domains.
- Automated certificate lifecycle to improve compliance readiness.

- Delivered executive dashboards for delivery, risk, and milestones.

PMO Lead - Strategic IT Projects | Jul 2018 - Jun 2019

- Built and operationalized a PMO governance framework supporting multi-cloud security and infrastructure programs across AWS, Azure, GCP, and Alibaba Cloud.
- Established governance standards, delivery cadence, and runbooks supporting audit stability and predictable execution.

### **Salesforce - Indianapolis, IN**

Technical Project Lead - Automation & Security | Aug 2017 – Jul 2018

- Led security automation projects to cut manual effort and tighten controls.

### **Oregon Health Authority - Portland, OR**

Information Systems Analyst - SecOps | Dec 2015 – Aug 2017

- Drove SecOps testing, remediation, and response readiness.

### **Army National Guard - Dallas, OR**

Squad Leader - Combat Engineer | May 2013 – Apr 2017

- Led combat engineer squad, executing high-risk missions.

### **CERTIFICATIONS:**

- **CISM** - Certified Information Security Manager (In Progress)
- Certified ScrumMaster (CSM) - Scrum Alliance (Exp. 2027)
- Former Secret Security Clearance - U.S. Army
